PROFILE

Computer Science graduate and MSc Data Analytics & Big Data student. Since March 2026 I have been working in technical support for Nova through BFS, handling customer issues with fixed-line, mobile and TV services. I am open to different roles in the technology sector, where I can keep learning and build on my experience.

EXPERIENCE

Technical Support Representative March 2026 – Present
BFS, Nova account · Athens

- Handling customer requests for Nova fixed-line, mobile and TV services.
- Troubleshooting connection, service and equipment issues together with the customer.
- Explaining technical problems in a clear and simple way.
- Logging cases and escalating them to the relevant team when needed.
