PROFILE

Computer Science graduate, currently studying for an MSc in Data Analytics & Big Data. I work in technical support for Nova through BFS, where I help customers with fixed-line, mobile and TV services. I enjoy technology and working with people, and while I complete my studies I want to gain experience in different technology roles.

EXPERIENCE

Technical Support Representative March 2026 – Present
BFS (Nova account), Athens

- Support Nova customers with their fixed-line, mobile and TV services.
- Troubleshoot connection, service and equipment issues and guide customers step by step.
- Explain technical problems in plain language, so customers know what happens next.
- Record each case and escalate issues that need further investigation.
