PROFILE

Computer Science graduate working in technical support for Nova through BFS while studying for an MSc in Data Analytics & Big Data. My work involves helping customers resolve service and connectivity issues. I am looking for an entry-level opportunity in data analysis or reporting where I can build practical experience alongside my studies.

EXPERIENCE

Technical Support Representative | BFS, Nova account

Athens, Greece | March 2026 - Present

- Help customers troubleshoot connectivity, service and equipment issues.
- Guide customers through troubleshooting steps and explain technical issues in clear language.
- Record case details and escalate issues that need further investigation.
